Product Discontinuation Notice

CDMA 450 Modem

Summary

Effective 28th of February 2021 NetModule is discontinuing all CDMA 450 based product variants of all product lines. The decision was taken based on the fact that the supported CDMA 450 networks have been decommissioned over the past years.

In many cases the CDMA 450 networks have been replaced by LTE 450 technology. The LTE 450 option (La) is available for most of the NetModule router series.
