Product Discontinuation Notice

NetModule Router Software V4.5

Summary

The NetModule Router Software (NRSW) version V4.5 has reached the End of Support and Repair (ESR) lifecycle state. The last version of V4.5 branch was released on 18th January 2022 (NRSW 4.5.0.108).

Therefore, NetModule will no longer offer updates, support and maintenance services for V4.5 (after above mentioned release dates) as part of our standard terms and conditions. We recommend our customers to update to a newer NRSW version. For customers who cannot update, we offer a Service Level Agreement (SLA) to ensure ongoing software maintenance.

Affected Products

The NRSW V4.5 has reached ESR for all products of our portfolio. Standard support, updates containing bugfixes or security patches are no longer provided, nor do we assure the compatibility to new product hardware.

Key Dates

End of Support and Repair (ESR) for V4.5: 19th March 2022
